

Using second hand equipment to cut your costs? Don't dream, **Do.**

Annie, Gab & Henry
Mongrel Bar & Kitchen

“Certified Used equipment has definitely helped us keep costs down as we built up our business - with the added bonus that it's more sustainable than buying new.”

Fridges, ovens, a dishwasher... and that's just the start. We know that fitting out your hospitality business is a huge investment. But saving money might be easier than you think... by choosing used equipment for some, or all, of your fit-out.

When you rent or buy SilverChef Certified Used Equipment, every piece of equipment has passed our stringent quality control standards.

Our used equipment is the next best thing to new.

Unlike buying at an auction or on a second hand website, SilverChef's Certified Used Equipment goes through a six-step refurbishing process that makes it as good as new.

- Keep more of your capital for running your business.
- Equipment meets strict quality and safety standards.
- Three-month warranty for extra peace-of-mind.
- Eligible for flexible finance with Rent-Try-Buy®.
- Upgrade to new or bigger and better at any time during your rental contract.

Don't dream, **Do.**

How does our Six-Step Certified Used Process work?

All Certified Used Equipment goes through a unique refurbishment process, so it's ready to work hard as soon as you get it – and for a long time after.

1 Return

Used equipment, often less than 18 months old, is returned to one of our Certified Used warehouses.

2 Clean

The equipment is professionally cleaned and polished by a dedicated team so it's spick and span.

3 Test

Every piece of equipment is run tested, including electrical testing and tagging for compliance with industry and safety standards.

4

Replace

Every component in the equipment is examined, and anything worn or damaged is replaced with brand new parts.

5

Check

Our Quality Assurance Officers make sure your equipment meets our Certified Used standards before it leaves the warehouse.

6

Delivery

We deliver your good-as-new equipment anywhere in Australia, complete with a three-month warranty.

Do you need flexible finance?

All SilverChef Certified Used Equipment is eligible for our Rent-Try-Buy® flexible finance solution, so you can rent for 12 months and get the equipment you need upfront, while still having the option to upgrade or buy at a later time.

Don't dream, Do.
